

OMEIAT

Directory of Muslim Educational
Institutions in Tamilnadu - 2002.

MEASI CENTENARY BUILDING, THE NEW COLLEGE, CHENNAI - 600 014.

The centenary building opened on 16-01-2002 to commemorate the hundred years of service of MEASI (Muslim Educational Association of Southern India). It is this campus which gave birth to OMEIAT in 1974 and acted as it's cradle and nursery during it's formative years.

INTRODUCTION

Contributions of Muslims of Tamilnadu to the cause of education – not only for Muslims but also for non-Muslims – is remarkably high for a community of its size and its economic status. No other community – as small as this and as poor as this – can equal Muslims in this respect. Their contribution by way of cash grants – recurring and non-recurring - and by way of lands, buildings, wakfs etc. to common educational causes has to be properly highlighted because that shows their deep commitment to a great cause. Hence our decision to bring out a Directory of this kind. Even though our efforts to collect particulars from individual institutions based on the prescribed format began early in January 2000, the response from the institutions was rather slow. After repeated reminders and personal persuasions spread over a long period, we could get particulars from about 200 institutions. At this stage we were advised that even this collection of details from as many as 200 institutions is encouraging enough to go ahead with its publication at least as the first edition. Subsequent editions could cover more number of institutions along with other improvements. We are greatly thankful to the authorities of all the institutions that co-operated with us and furnished particulars as sought by us.

Part I of this Directory contains particulars of institutions furnished by them in the format prescribed by OMEIAT. The institutions have been listed in the chronological order of their year of establishment. Part II contains the list of such institutions which were earlier enrolled as members of OMEIAT but whose details could not be obtained in time. Part III contains a list of Muslim-schools and colleges, which are yet to become members. It is possible that a few Muslim schools functioning in Tamilnadu may not find a mention in any of these three parts. As far as Arabic colleges and Madrasas are concerned, OMEIAT does not have all of them as members nor is OMEIAT aware of all of them as on date. Hence omission of a good number of such religious institutions has been inevitable.

Irrespective of coverage by Part, I, II or III mentioned above, institutions under Muslim management category wise is as follows: (General associations, trusts and societies working in the field of education have been excluded.)

Primary and Middle Schools	—	152
Secondary and Higher Secondary Schools including Matriculation Schools	—	121
Arts and Science Colleges	—	22
Engineering Colleges	—	12
College of Architecture	—	1
College of Management	—	1
Colleges of Paramedicals	—	5
Polytechnics	—	6
Industrial Training Institutes	—	12
Arabic Colleges	—	9
	-----	341.

In bringing out this Directory, we acknowledge the help of Mr. Sheikh . A. Shakeel for his kind co-ordination and M/s. Patel Printers for their whole hearted co-operation.

A Word about OMEIAT

Organisation of Muslim Educational Institutions and Associations of Tamilnadu or OMEIAT as it is popularly known is an unique common platform for all the colleges, schools, polytechnics, I.T.I's, madrasas being run by the Muslims in the State of Tamilnadu. It has no individuals as members. Each member institution nominates, in writing, its Correspondent (mostly) or any other member of its management to the General Body. This General Body elects an Executive Board from out of its members. It is only the honorary legal advisor who is elected in the individual capacity based on his legal acumen and dedication to the cause of Muslim education.

GENESIS

Prior to 1973, Muslim schools and colleges were functioning in splendid isolation without any mechanism for mutual consultation or guidance. Till then, private schools and colleges were functioning with a good deal of freedom and without any objectionable interference from the Government. Religious and linguistic minorities had no insurmountable problem in opening schools and colleges, getting recognition or affiliation or in getting teaching grants. Urdu linguistic minority children had enough protection with regard to their mother tongue. Slowly the situation began to change with changing rules and regulations of the State Government. Hurdles were placed in the way of new schools being opened by the linguistic and religious minorities. A

stage was reached when it became necessary for managements of Muslim schools and colleges to consult each other and take collective action to safeguard the constitutional protection given to the minorities in opening and running educational institutions of their choice.

It was at this stage that the then Honorary Secretary of The Muslim Educational Association of Southern India (MEASI), Mr. A.A. Rasheed convened a meeting of the representatives of many institutions, known to him, in May 1973. The response was instantaneous. The meeting thus convened was well represented and had the benefit of presence of thinkers, educationists and those highly experienced in management. The various problems facing Muslim education and Muslim institutions were considered in detail. These problems were divided into two categories: (1) Problems to be solved by the community itself (2) Problems to be taken up with the Government. With a view to tackle them effectively, they constituted an adhoc committee called "Tamilnadu Muslim Education Standing Committee" so that it could meet frequently and to pursue the matters to a fruitful end. The Standing Committee had a series of sittings. It launched a random sample survey of educational conditions of Muslims of Tamilnadu. Volunteers were sent out to the various parts of Tamilnadu to collect statistics according to a proforma printed in Tamil, Urdu and English. On receipt of these statistics, an analysis was made to assess the ground realities of the day. Some of these findings were that: (1) School education has to improve a lot among those Muslims who are poor and those living in villages and slums - First generations of learners have to be created. (2) As compared to colleges our managements have to pay equal attention, if not more, to schools. (3) Special attention has to be paid to vocational education and skill development. (4) Value education and character building have to become part and parcel of our curriculum everywhere. The Committee also conducted the historic "First Tamilnadu Muslim Educational Conference – 1973" on 22nd and 23rd of September 1973 in the campus of The New College, Chennai. The findings of the survey were published in the Souvenir brought out during this Conference. Authorised representatives of all Muslim Colleges and schools attended this Conference. Some 300 representatives attended this two-day conference which has left historical impacts. One impact was the awareness created about the Articles 29 and 30 of the Constitution of India that give unfettered freedom to religious and linguistic minorities to open and run educational institutions of their choice, the second being was the realisation of the utility of periodical educational

surveys and conferences. The third impact was the recognition of the need for a permanent body for co-ordination between Muslim educational institutions in the State. The Tamilnadu Muslim Education Standing Committee did not rest with the conference. Representations were made to the State Government and the Universities etc. Simultaneously it also took steps to form a permanent body by framing a constitution of OMEIAT and convening a meeting of all the Muslim Colleges and Schools for forming OMEIAT. It was at this historic meeting in May 1974 that OMEIAT was registered as a society with its office at the New College and with the Chairman of the New College as the first President and with the Correspondent of the New College as the first General Secretary of OMEIAT and Mr. Habibullah Badsha as the honorary legal advisor.

FOUNDERS:

Even though many individuals extended valuable support to the idea of OMEIAT, it was left to a few individuals, who took all the pains to sustain the Tamilnadu Muslim Educational Standing Committee in the initial stages, organise the educational survey and the conference purposefully and to bring into existence a permanent body (OMEIAT) and nurture it to acceptable levels of maturity. Janab Habibullah Badsha Saheb, Dr. J. Azeez-ur- Rahman Saheb, Janab A.K.A. Abdus Samad Saheb, Janab A.A. Rasheed Saheb, Janab Kaka Mohamed Oomer Saheb, Janab C.M. Fazlur Rahmon Saheb, Janab P.K. Shabbir Ahmed Saheb, formed this team of founders. As far as institutions are concerned, it is the New College and the Muslim Educational Association of Southern India (MEASI), Chennai which acted as a cradle and nursery to the OMEIAT and their support continues to this day.

HIGHLIGHTS OF OMEIAT'S SERVICING

In the eyes of most people, OMEIAT is the bulwark against the interference with minority rights, thanks to the monumental services rendered by our honorary legal advisor, Janab Habibullah Badsha Saheb, who has been successfully and ceaselessly championing the cause of minority rights since 1973. He is the first to discern any overt or covert interference in minority rights and he is the first to offer his honorary services to all the minority schools and colleges to fight such interferences. Thus he is rightly regarded as the shield and defender of minority rights as enshrined in the Constitution of India.

It has to be pointed out that the constitutional safeguards available to the Muslim minority educational institutions are only a means to an end. The OMEIAT believes that this constitutional protection is there only to enable our colleges, schools and other institutions to further the cause of education among the Muslim masses. Following the grand State Conference of 1973 the OMEIAT was conducting district level educational surveys and conferences – one district every year – along with its annual general body meetings. This pattern continued for a decade or so in the beginning with annual Conferences in different centres like Coimbatore, Madurai, Tirunelveli, Salem, Erode, Vellore, Ambur, Ilayangudi, Kumbakonam etc. and in Chennai many times. In addition, a number of seminars and workshops were also conducted for heads of higher secondary schools and others with a view to improving their servicing. Career Guidance Programmes were conducted at a number of centres in the State. Coaching Programmes for Government and Quasi Government services were conducted at Chennai and Tirunelveli (with the help of Muslim Orphanage Committee). A non-formal teacher training course was conducted, for boys at the New College and for girls at J.M. Matriculation School, Chennai.

An important contribution of OMEIAT has been introduction of Islamic education in secular colleges and schools. It has caused publication of graded textbooks on Islamics. It also conducted annually, religious orientation camps for teachers of colleges and schools so that these teachers can handle religious education classes in their respective institutions as part and parcel of regular curriculum. These were intensive residential camps lasting upto three weeks conducted with lodging and boarding facilities in the campuses of the New College (Chennai) Crescent Residential School, Vandalur and Muslim Orphanage Committee, Tirunelveli. Nearly 300 teachers were thus trained. OMEIAT conducted a training camp for Moulvis also who teach in maktabas.

OMEIAT was the pioneer in awarding prizes to top ranking Muslim students of Standard X and Standard XII. This proved so popular that many organisations came forward with such schemes. Welcoming this trend, OMEIAT discontinued this scheme so that others can do it better. Similarly OMEIAT was also the pioneer in floating the idea of running summer schools of Islamics. This also has been taken up by others for good.

Through the OMEIAT Journal, initiated mainly by Dr. J.Azeez-ur-Rahman Saheb, sound and practical ideas of education, educational management and Career Guidance are being propagated. It tries to update the familiarity of our management with the fast changing trends in the field of education. It also focuses on what should be our areas of concern at a given point of time. The utility of this Journal is being widely acclaimed.

OMEIAT has been encouraging the cause of Muslim education in its totality. Renowned Muslim educational bodies in the rest of the country have hailed the concept and working of OMEIAT. Within the State, the other umbrella organisations like the United Minority Forum (of Christians and Muslim educational institutions) and the FORMIA (a body of both religious and linguistic minority educational institutions) have been smoothly collaborating with OMEIAT.

Right from the inception OMEIAT has been clear in its stand that real contribution in the field is possible only through individual institutions functioning in different places. OMEIAT respects the independence and individuality of member institutions and wishes each one of them to grow from strength to strength. It has never sought to meddle with the internal affairs of its member institutions. On the other hand it has always reached them in the hour of their need. It is always willing to lend a helping hand wherever desired.

In moments of crisis affecting the very survival of Muslim schools and colleges it has played a vital role. Even in cases when an individual college or school was faced with some unusual difficulty, the quiet and unpublicised services of OMEIAT were resorted to. OMEIAT thus symbolises the collective strength as well as the collective aspirations of Muslim educational institutions in Tamilnadu.

However there is no room for complacency. Challenges faced by OMEIAT Members are big enough. Challenges ahead are bigger. Education itself has undergone complex changes. Future changes are likely to be more complex. These challenges and complexities call for greater thinking and planning as well as greater consultation and co-ordination.

Prof. S. Peer Mohamed
President
OMEIAT

RICH MUSLIMS ARE ONLY 1.9% ?

There is a general impression that (1) Muslims in Tamilnadu are well to do and that (2) the majority of them are thriving in business. Both these notions have been proved wrong by the "Socio-Economic Survey of Religious Minorities" recently conducted by the Directorate of Evaluation and Applied Research (DEAR) of the Govt. of Tamilnadu.

At todays cost of living only those who earn more than Rupees one lakh can be considered rich. Now the findings of the above-said survey reveals that only 1.9% of Muslim household have an annual family income of more than Rupees one lakh. (Refer to Table A given below). In fact the average per capital income of Muslims is Rs.4,765/- (per year). It means a monthly income of Rs.397/- and a daily income of just Rs.13.23! (Refer Table B).

Are Muslims Really a Business Community?

Table C given below shows the occupational break-up. The DEAR survey does not give separate break-up for each minority. Businessmen in all minorities i.e. Christians, Muslims, Buddhists, Sikhs, Jains, Zorastrains put together constitute 11.9%. Sikhs, Jains and Zorastrains are much ahead of Muslims in business. Even Christians are better organised in business than Muslims. Therefore it is likely that Muslim businessmen may not be even 11.9% of their population. Even if so, the rich among them (earning more than Rupees one lakh annually) being only 1.9% the remaining 10% are only marginal businessmen earning Rupees one lakh and less per annum. These are obviously in 'unworthy' business like petty vendors or platform hawkers. The intention here is not to denigrate them but to stress the point that only 1.9% are good businessmen and the remaining 10% are such businessmen that they can better be described as self-employed people. On the other hand, the other minorities like Jains, Sikhs or Zorastrains are earning far better. Muslims' earning is the least (Refer to the Tables).

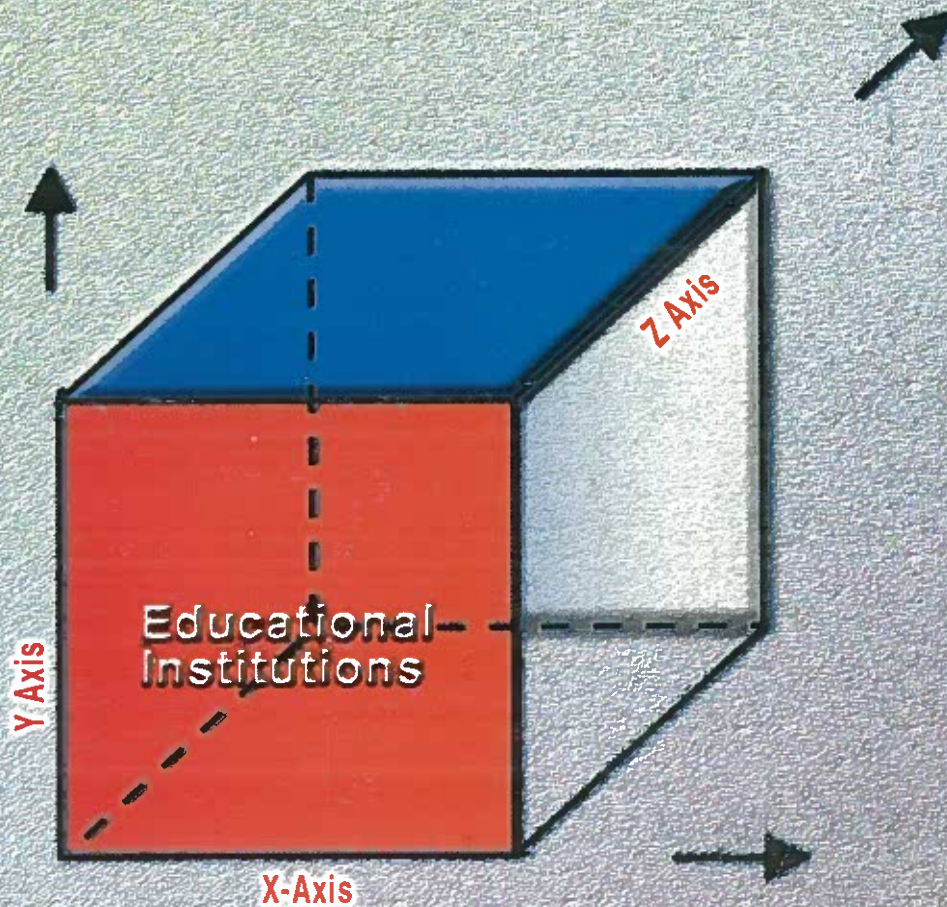

When this is the stark reality how come the Muslim community is considered to be well to do? The only explanation can be that the miniscule minority of the wealthy within the community are so much in focus that a community whose average per capita income per day is Rs.13.23 is mistaken to be well off!

WANTED : A CENTRE FOR RESEARCH & EXPERT ADVICE

1.	Leaders of Muslim organisations are spending a lot of their precious resources for community projects. For want of field data, they are proceeding on personal judgements, which differ from person to person.
2.	The whole body of education is undergoing tremendous and fast changes. We do not have any track of these changes. Nor do we have any field data of today's requirements (at various levels and in different environs).
3.	Now that self financing courses are becoming almost the order of the day, we have to think of ways and means of helping the poorer Muslims.
4.	Field studies regarding school dropouts in different areas and practical remedies to ensure basic education and suitable vocational training are necessary.
5.	Correlation between college studies - including professional colleges - and employment potential requires continuous review.
6.	Project Reports on 'Community Colleges', 'Community Polytechnics', 'Open Universities' and 'Open Schools' with reference to different geographical areas are needed.
7.	A workable plan of action to impart religious education and character building to suit different schools and colleges is required.
8.	A periodical educational survey of Muslims in different areas has to be done to help the local associations and institutions.
9.	We need updated statistics for presentation to various authorities.
10.	Christians and others have been, for long, doing sociological research in areas of their interest and in areas of common interest like the backwards and the tribals. Only Muslims who need this most, have been indifferent.

FOR THESE AND SUCH OTHER REQUIREMENTS AND ALSO TO ACT AS CONSULTANTS WE BADLY NEED A WELL EQUIPPED INSTITUTE WHICH CAN UNDERTAKE RESEARCH IN A PROFESSIONAL WAY AND PUBLISH ITS RESULTS FOR USE BY ALL. THIS IS THE NEED OF THE HOUR.

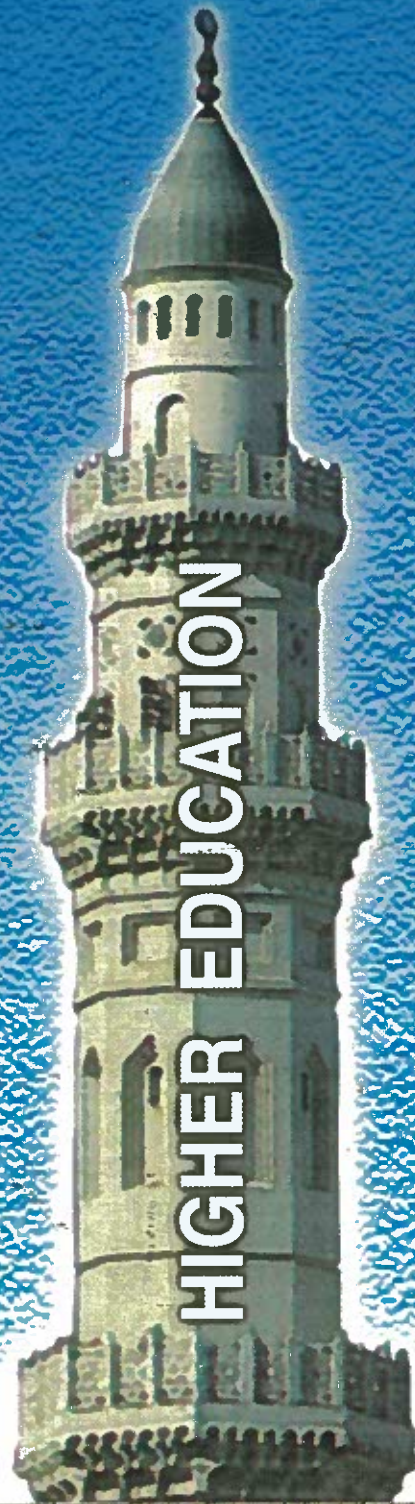

Like a three dimensional dynamic body, our educational Associations and Institutions have to simultaneously move, with equal force, in all the three directions. This alone will result in an alround and perceptible progress.

X-Axis - Creating first generations of learners

Y Axis - Promoting higher & professional education

Z Axis - Ensuring utility and quality at all levels
